

We currently seek a highly motivated individual to drive our press and marketing strategy, with a strong focus on audience engagement, brand awareness, digital and social media. This is an exceptional opportunity to lead on PR, marketing and sales for an award-winning music charity which works to ensure the voices of the best British and Irish composers are heard globally and in perpetuity.

Working closely with, and reporting to, the Creative Director, along with the whole team, you will be responsible for ensuring continuous visibility and profile; highlighting our releases and extensive back catalogue plus the work we do to support composers, from early career to great titans of the C20th.

This is an exciting time for NMC. 2024 marks our 35th year and we have a vibrant release schedule planned over the next few years.

About NMC

NMC Recordings is a unique arts charity and record label, dedicated to the promotion of exceptional contemporary classical music from Britain and Ireland. The vital role that we play in the new music sector means that without NMC, hundreds of important works would not be recorded and heard by audiences across the world.

NMC supports composers at every stage of their career: from the emerging names taking part in our talent-development partnerships, to the rising-stars releasing their first portrait album in our Debut Discs series, and through to music by established voices that needs to be heard and is not available elsewhere. NMC has become a trusted brand, relied on by critics and commissioners around the world who want to have their finger on the pulse of cutting-edge classical music.

Increasing diversity in the music industry is at the core of NMC's work. We are focused on collaborating with communities that are traditionally under-represented in classical music, ensuring that these exceptional creative voices are heard. NMC is a National Portfolio Organisation of Arts Council England, and as a registered charity we rely fully on donations to fulfil our work.

Over the last five years NMC has delivered excellent education projects, taking new music into the classroom through a series of free digital resources and in-person creative music-making projects. Our strategy targets diverse communities and we work closely with local Music Education Hubs to best meet their needs. Projects are delivered free-of-charge, to benefit those who otherwise may not receive extra-curricular musical opportunities.

The composer Colin Matthews founded NMC 35 years ago to remedy the almost non-existent representation of living British composers in the recording catalogues of major labels at the time. NMC's invaluable work supporting the rich breadth of compositional talent from across Britain and Ireland means that our catalogue now holds more than 300 albums, and is a diverse living archive of classical music spanning multiple generations of composers.

NMC:

- has released over 300 recordings of high-quality performances.
 - has featured more than 600 major international artists and ensembles.
 - has recordings that are available in 150 countries.
 - has received a combined 29 million downloads and streams in the last ten years.
- has sold more than 37,000 CDs in the last ten years.
 - has a non-deletion policy – all recordings are permanently accessible to the public, making it a national living archive of British and Irish contemporary classical music.
 - was the first organisation to receive the prestigious Royal Philharmonic Society's Leslie Boosey Award for “its outstanding contribution to the furthering of contemporary music”.
 - Colin Matthews, NMC founder and Executive Producer received the Gramophone Special Achievement Award 2017 for his “unique contribution to British contemporary music as founder and executive producer of NMC”.

“In the almost 35 years since its founding NMC has become a national treasure, introducing listeners all over the world to new music by composers from Britain and Ireland. Their ambitious vision and dedication is unwavering and this is reflected in the quality of what they continue to achieve. NMC is an indispensable part of our history and our future: long may it flourish!”

Sir Simon Rattle, NMC Patron
